

AWAKENING IN LOVE

Retreat

Deepening the power of presence and awareness
in relationships

**This retreat set in the tranquil surroundings of Temenos in McGregor
will open the door within to experiencing real love...**

"We all experience brief moments in our lives when we are in love. Our hearts beat more joy into our veins, the world looks brighter, colours are richer, and we feel invigorated! It's as if dark clouds have briefly parted, and the sun now shines more brilliantly on and through us, opening our hearts more fully to the joy of living! Feeling this way is beyond compare... We never want it to end! We feel invincible; connected to all of life in its beauty"

Is it possible to live every day this way? Is it possible to experience life this way; to live constantly *in love*?
